COMPETITORS: PRICE, PRODUCTIVITY, SPEED

“ We were aware of the good quality and reliability that Konica Minolta stands for in general. When we looked at the machine and analysed the combination of the print quality and the price, we were fully convinced: the print quality can definitely keep up with machines in the higher segment. And a couple of our customers without experience with digital were really blown away. Additionally, we value the personal relationship with the Konica Minolta representatives, it 'felt right' from the start. This acquisition surely paid off well for us. ”

PHIL ACHURCH, MANAGING DIRECTOR, SOABAR, GREAT BRITAIN, 2017
